## PROFESSIONAL SUMMARY

Third-year Software Engineering student selected for the prestigious **Siber Vatan** cybersecurity program. Combines strong **Full-Stack** (React/Node.js) and **Mobile** (Flutter) development skills with a growing expertise in **Artificial Intelligence** and **Embedded Systems**. Experienced as a technology instructor at **T3 Foundation**, mentoring the next generation in robotic coding. Aiming to leverage technical versatility in challenging engineering roles within international/European tech ecosystems.

## EDUCATION

Harran University | Sanliurfa, Turkey

B.Sc. in Software Engineering | Sep 2023 – June 2027 (Expected)

- **Focus:** Data Structures, Algorithms, Database Management Systems (DBMS), Object-Oriented Programming.
- **Club Membership:** Active Member of Türkiye Bilişim Topluluğu (Turkish Informatics Community).

## HONORS & SPECIAL PROGRAMS

**Siber Vatan Cybersecurity Program** | *Selected Student (2025)*

- Accepted into Turkey's competitive cybersecurity talent development program. Focusing on defensive security, cryptography, and network analysis protocols.

## TECHNICAL SKILLS

- **Languages:** Java, JavaScript, Dart, C++, SQL, Python, **Assembly (PIC)**.
- **Frontend & Backend:** React.js, Node.js, Express.js, Tailwind CSS, RESTful APIs.
- **Mobile:** Flutter, Hive (Local Database), Mobile Architecture Patterns.
- **Embedded & Hardware:** **Proteus (Simulation)**, PIC Microcontrollers, Logic Design.
- **AI & Robotics:** Advanced Robotic Coding, Generative AI Tools, Prompt Engineering.
- **Professional Competencies:** **Agile & Scrum Methodologies**, Technical Documentation, Research.
- **Core Concepts:** 3NF Database Normalization, Blockchain Architecture (Hyperledger), CRUD Operations.

## KEY PROJECTS

Blockchain-Based Diploma Verification System | TÜBİTAK 2209-A Research Project  
Developing a privacy-focused decentralized application (DApp) to verify academic credentials.

- Designed a **Hybrid Architecture** using **Hyperledger Fabric** to ensure data immutability while protecting student privacy.
- Utilized **SHA-256** hashing algorithms for secure document verification.
- *Technologies:* Hyperledger Fabric, Go (Chaincode), React.js.

Relational Task Management System (Full-Stack) | Web Development

Built a comprehensive web application for task tracking with relational database integration.

- Developed a robust **RESTful API** using **Node.js & Express** to handle CRUD operations.
- Designed a normalized (**3NF**) SQL database schema ensuring data integrity.
- *Technologies:* React.js, Node.js, SQL, Express.js.

**Param Cepte | Personal Finance App** | *Mobile Development*

- *Developed with Flutter:* Created a cross-platform mobile app to track personal income/expenses.
- Implemented **Hive** (NoSQL) for high-performance, offline-first local data storage.
- Focused on mobile architectural patterns for scalable state management.

**Embedded Systems & Hardware Simulation** | *Low-Level Programming*

- *PIC16F84A Implementation:* Developed assembly language algorithms to control hardware logic.
- Simulated complex circuit designs and signal processing flows using **Proteus**.
- Demonstrated deep understanding of registers, memory management, and hardware interrupts.

European Energy Distribution System | Algorithm Analysis

Engineered a C++ simulation tool analyzing energy costs using complex file I/O and data structures. (1000+ lines of code).

## VOLUNTEER & WORK EXPERIENCE

**Instructor (Eğitmen)** | *Turkey Technology Team (T3) Foundation (2025 - Present)*

- Delivering advanced technical training on **Robotic Coding** and **Artificial Intelligence** to high-potential students.
- Mentoring students for national technology competitions (TEKNOFEST) and project development.

**Volunteer Educator** | *TEGV (Educational Volunteers Foundation of Turkey)*

- Mentored primary school children, improving communication and leadership skills.

**Insurance Consultant** | *Turkiye Sigorta Agency (2018 - 2020)*

- Managed customer portfolios and utilized Excel for data analysis and reporting. Developed strong soft skills in client relations.

## CERTIFICATES & TRAINING

- **Gaziantep Science & Technology Camp** | *T3 Foundation & UNIDES (May 2025)*
  - Participated in workshops focused on the National Technology Move.
- **Unreal Engine 5 Training** | *HAVELSAN & Sanliurfa Teknokent (Dec 2024)*
  - Completed intensive training on game engine fundamentals and simulation technologies.
- **Generative AI Training** | *Habitat Association & Empower Me (July 2025)*
- **Europass CV & Google Tools** | *Sosyal Atlas Youth Network (Aug 2025)*

## LANGUAGES

- **Turkish:** Native
- **English:** Intermediate (B1)
